

Much like his work, the life of Edgar Allan Poe was short, tragic and shrouded in mystery. Best known as the author of the popular poem "The Raven", Poe is credited with creating the detective and horror story genres. After a brief stint at the University of Virginia, Poe enlisted in the army under the pseudonym Edgar Allan Perry and was stationed at Fort Moultrie at the western end of Sullivan's Island, SC for thirteen months beginning November 18, 1827. His time on the island inspired "The Gold Bug", a story about a mystical beetle that led to buried treasure. He died alone, impoverished and inebriated at the age of 40 amid conflicting accounts of his demise, yet left an indelible legacy on American literature.
